CHAIR EHAB

The Ehab family consists of a chair, a chair with a high backrest, an armrest and an armrest with a high backrest. The armrests provide good support when standing up. A wide, rounded seat at the front ensures comfortable sitting. The backrests ergonomically follow the shape of the person's back. The versions with the higher backrest make sitting even safer and more comfortable thanks to their stabilizing effect. So that you can sit more upright and therefore more comfortably at the table, whether eating in the dining room or socializing with other residents. The chair can also be fitted with castors on the front legs so that the seated person can be easily pushed to the table from behind. Thanks to their clear and simple look, the chairs are suitable for a wide variety of furnishing concepts. The family is available in stained oak and stained and lacquered walnut. There is a selection of beautiful colors and patterns for the covers. All Health & Care fabrics and faux leathers are qualified for use in the care sector. With the products from the Ehab family, you are opting for classic Health & Care seating furniture that impresses with its good price/performance ratio.
