Hoher Sitzkomfort und dauerhafte Formstabilität /
High seating comfort and long-lasting shape retention /
Grand confort d'assise et stabilité dimensionnelle durable

This lounge system combines the iconic design language of the 1960s and 1970s with modern comfort for the demanding contract furniture sector. The modular elements, comprising a single-seater and an armchair with armrests, can be flexibly combined and securely connected to create stable seating arrangements that stay in place. The solid beech armrest tops in an elegant walnut finish add warm, natural accents and provide a premium tactile feel. A sturdy steel frame as the supporting base guarantees long-lasting quality and high load-bearing capacity for everyday use. Exceptional seating comfort is achieved through the high-quality sandwich upholstery construction, featuring 60 mm of highly resilient HR foam, 40 mm of comfort foam and durable Nosag spring suspension. This construction provides a pleasantly soft seating experience, optimal pressure distribution and lasting shape retention – ideal for hotels, restaurants and commercial interiors. Thanks to the wide selection of fabrics and colours available in the GO IN fabric concept, the lounge system can be customised to suit individual preferences and harmoniously integrated into a wide variety of interiors.

• Comfortable sandwich upholstery – High-quality construction featuring HR foam, comfort foam and Nosag spring suspension for exceptional seating comfort and lasting shape retention
• Modular lounge system – Flexible, combinable elements with secure connections for stable seating arrangements that stay in place
• - Premium materials – A solid steel frame and elegant beech armrest tops in a walnut finish combine durability with timeless elegance
