

DINING TABLE **AKI**

Our Aki table for the health & care sector as well as restaurants and canteens. The wood of the table is stained oak. The Scandinavian style of the table top, which is made of MDF and yet easy to clean, is covered with beech veneer and flows attractively into the sturdy, conically shaped legs made of beech. The bevelled edges on the tabletop and the slightly splayed table legs are of interest. The individually tied legs lend the table lightness and offer maximum space for the legs. The Aki table can be optimally arranged next to each other. Due to its height of 75.5 cm, the table is barrier-free. Aki is available in the size 160 x 80 cm.
