

ARMCHAIR JOLKA

Jolka is a stable and comfortable armchair. The ergonomically shaped backrest, which also gives the armchair visual character, and the wide seat, which is rounded at the front, provide stability when sitting. One feels well taken care of, comfortable and safe and has a lot of free space when sitting. All in all, it makes sitting comfortable, so that you can either relax well or exchange pleasantly with other fellow residents. When getting up, you can lean on the rounded armrests with confidence. The armchair is available in oak and walnut stained and lacquered. There is a choice of beautiful colours and patterns for the cover. All Health & Care imitation leathers offered are qualified for use in the care sector.
