CHAIR P32

Monochrome stands for purity and harmony. Our new duo P32 and P33 were created according to this principle of the monochrome look - tone in tone. In their design language, the products are timeless, puristic, playful and yet independent. P32 is rather angular in its design and is intended to evoke the masculine, the striking. P33 is more round and is intended to evoke the feminine, soft. Despite the filigree look, the matt powder-coated tubular steel frame is stable and robust. The workmanship of the chairs is of particularly high quality. The seat and back cushions are very comfortable. They can be upholstered with fabrics and imitation leathers in various, sometimes even extravagant colours. Depending on your wishes, you can choose a beautiful colour combination for any ambience. P32 and P33 are offered as chair and armchair in two different seat upholstery thicknesses. Together with these chairs and matching table frame T12 slim a harmonious meeting place can be created.

- Design classics
- Various designs available to choose from
- Very robust
