Leveling System passend zum Tisch Halvar /
Leveling System matching table Halvar /
Leveling System assorti à la table Halvar

AI-TEXT: The 101QHM levelling system is a reliable accessory for professional furniture installation, helping you achieve stable, perfectly aligned units even on uneven floors. Designed for B2B projects, it supports faster fitting, improved load distribution and a cleaner final finish across cabinets, shelving and modular interiors. Specify Accessories – Levelling System – 101QHM to reduce on-site adjustments and minimise call-backs, delivering consistent results for contractors, fitters and facilities teams.
