

TABLETOP **GAIO**

For a table with a particularly noble look: our Gaio table top for your outdoor area. The marble surface of Gaio is matt polished and has a water-resistant wooden base plate. The wooden base plate already has threaded inserts for our GO IN standard fixing top for easier assembly. The stone top consists of 95% marble stone and 5% polyester resin. This ensures a lively, varied surface image and distinguishes the appearance of the slab. Available in two square and two round versions. The slab thickness is 12 mm. Ideal for restaurants, cafés, bars and hotels.
