

ARMCHAIR EDOR

The robust outdoor chair Edor made of glass fiber–reinforced polypropylene is UV-resistant, weatherproof, and designed for professional use in contract environments. Thanks to the integrated drainage system, no water collects on the seat surface – ideal for outdoor areas used year-round. The chair supports loads of up to 160 kg, providing sufficient safety and stability even with high traffic. Space-saving stackable, it is perfectly suited for restaurants, hotels, canteens, and event areas. Available as a classic chair or as an armchair, the range offers maximum flexibility in seating arrangements. The excellent price-performance ratio makes it an economically sound alternative to metal or wooden furniture.

- Weatherproof & UV-resistant for long-term professional use outdoors.
- With water drainage and stackable – ideal for efficient outdoor seating.
- Supports up to 160 kg, available as a Chair or Armchair, offering excellent value for money
