

ARMCHAIR MEYORO

The Meyoro Armchair combines modern design with well-thought-out functionality for outdoor use. The powder-coated aluminium frame has a slim, contemporary look while remaining stable and durable. The rope-look synthetic weave is quick-drying, does not absorb water and is therefore ideal for outdoor use. The continuous wrapping of the armrests with the rope weave emphasises the high-quality, cohesive design. The cross-woven pattern in the seat creates a distinctive appearance, while the vertical double weave in the backrest provides stable support and excellent seating comfort. The chair is stackable, making it perfect for flexible seating in high-traffic outdoor areas.

- Quick-drying plastic mesh in rope look that does not absorb water.
- High-quality look thanks to wrapped armrests, cross weave in the seat and double weave in the back.
- Stackable, powder-coated aluminium frame for flexible and robust restaurant seating.
