

ARMCHAIR **MILORA**

The Milora outdoor armchair is made for the tough everyday use in gastronomy: a powder-coated aluminum frame offers high stability with low weight. The weave made of water-repellent, UV-resistant plastic rope remains dimensionally stable even with intensive use and exposure to the elements. In the seat area, a high-quality, striking cross-weave sets a clear design accent and at the same time increases seating comfort. Dirt can be wiped off quickly, making the chair particularly easy to care for. It is stackable and saves space in storage or during quick terrace reconfigurations. The very modern, linear design looks high-quality and suits contemporary outdoor concepts.

- lightweight, sturdy frame
- UV-resistant, water-repellent plastic rope
- Stackable and easy to clean
